

Contractor List

This list contains contractors familiar with the RiverSmart Maintenance Assistance Program (RSMAP) requirements and process, but is not a comprehensive list of landscape maintenance providers. If you have any questions or know of a contractor that would like to be added to this referral list, please contact Jamie at the Alliance for the Chesapeake Bay at jalberti@allianceforthebay.org.

Please note, this referral list is provided as a convenience to RiverSmart homeowners seeking landscape maintenance services. Homeowners will contract directly with contractors for completion of desired maintenance work and payment terms. We recommend that you seek at least three different quotes from contractors (does not need to be listed here) before making a decision about which contractor to use.
