

# FUNDING RESOURCES

In the State of Maryland, funding assistance programs can be found by searching the [Maryland Resiliency Partnership Grant database](#). The programs are tied to pollution prevention and conservation outcomes and vary in their cost-share percentages and limits. Access the database on the partnership website and search keyword living shoreline. Additional funding for living shorelines may be available through your county or city.

- [md-resiliency-partnership-maryland.hub.arcgis.com/pages/grants](https://md-resiliency-partnership-maryland.hub.arcgis.com/pages/grants)  
The Department of Natural Resources provides information about loans and technical assistance for property owners considering installing living shorelines.
